EXPERIENCE

CHINGU

Front-End Developer | Jan 2023 - Current

Played an integral role within a team of developers to successfully launch an engaging 3D website, highlighting team skills.

- Leveraged the power of Three.js to deliver an immersive and captivating 3D experience to website visitors.
- Incorporated captivating animations, encouraging users to revisit the website or prolong their engagement.

Collaborated with 2+ developers to successfully deploy an application dedicated to helping users track their money flow.

- Employed React to implement responsive design, elevating the user experience to new heights.
- Utilized Chart.js to provide users with visually appealing and accurate graphical representations, adding a distinct edge to the app.
- Assumed the responsibilities of a Scrum Master, effectively managing the backlog, delegating tasks, and facilitating seamless communication within the team.

REPLNT

React Developer | Mar 2022 - Dec 2022

- Showcased proficiency in React component design and robust state management for targeted use cases.
- Maintained codebase and implemented automated tests to uphold the highest standards of code quality.

FREELANCE WEB DEVELOPMENT

Software Developer | Jul 2021 - Mar 2022

- Successfully converted prototypes into clean and scalable code, ensuring smooth development processes.
- Build robust RESTful APIs to facilitate efficient data management.
